Risk Management
Education

Cardiovascular Risk Assessment and Chronic Kidney Disease

A series of half day Master Class meetings for general practitioners,
nurses and other primary care healthcare professionals

INVITATION & PROGRAMME

Register now at: www.academe.org.uk

Sponsored by an unrestricted educational grant from
Boehringer Ingelheim UK

INVITATION

Dear Colleague,

ACADEME is an initiative that aims to offer health care professionals in primary care comprehensive and up-to-date educational opportunities in managing cardiovascular risk.

As one strand of this initiative, the ACADEME Primary Care Master Class Series will be held at venues throughout the United Kingdom.

Each of these meetings will bring together local enthusiasts and experts to focus on a particular aspect of cardiovascular risk management.

This series of meetings will focus on chronic kidney disease, an important area of cardiovascular medicine that is too often neglected.

Each meeting will take a case-based approach and will give you a unique opportunity to get to know your local colleagues and the services they provide.

Lunch will be provided before each meeting.

We hope that you will take the opportunity to join us at one of the Master Classes and look forward to seeing you there.

Professor Michael Kirby

Co-Chair of ACADEME

Visiting Professor to the Faculty of Health and Human Sciences at the University of Hertfordshire

ACADEME STEERING COMMITTEE

PROGRAMME

1:00pm – 2:00pm	Registration and Lunch
2:00pm – 2:10pm	Welcome, Objectives and Introduction to the ACADEME Educational Initiative
2:10pm – 3:00pm	Cardiovascular Risk Assessment in Primary Care
3:00pm – 3:50pm	Interactive Case Study in Chronic Kidney Disease
3:50pm – 4:20pm	Chronic Kidney Disease in Primary Care – Get to Know Your Local Nephrology Services
4:20pm – 5:00pm	Debate – This Local Health Economy Cannot Afford to Manage Cardiovascular Risk Optimally
5:00pm	Close

LEARNING OBJECTIVES

After attending this ACADEME Primary Care Master Class, you will be able to:

- Effectively communicate cardiovascular risk to your patients
- Effectively communicate to patients how they can help to reduce their own cardiovascular risk through self-management, for example by providing strategies for promoting and motivating physical activity, healthy eating, etc;
- Formulate strategies for maximising adherence to medical advice and prescribed medication

WHO SHOULD ATTEND

The ACADEME Primary Care Master Classes are suitable for all health care professionals with an interest in cardiovascular risk management. These may include:

- GPs in PCT roles (particularly those involved in areas such as coronary heart disease, diabetes, clinical governance and prescribing leads)
- GPs with a Specialist Interest in areas such as cardiology, diabetes, lipid management, chronic kidney disease and cardiovascular risk management
- Nurses involved in the management of cardiovascular risk including diabetic specialist nurses and cardiac liaison nurses.

CONTINUING PROFESSIONAL DEVELOPMENT

The meetings may be deemed suitable for your Continuing Professional Development (CPD). Attendance Certificates will be issued to all attendees at the end of the meeting.
