

## **Guidelines Briefings: cardiology for primary care**

We have arranged for you to receive a **20% discount** on attending *Guidelines* Briefings in cardiology, which are to be held in London on Wednesday May 5<sup>th</sup>.

*Guidelines* Briefings are organised by the publishers of *Guidelines*, *Guidelines in Practice*, and *eGuidelines.co.uk*, and are whole day educational events that update you on the latest clinical guidance in primary care.

Expert speakers will summarise the keys points for implementation, discuss case histories, and present the evidence behind the guidelines.

Each event provides up to 6 hours of quality CPD, a certificate of attendance, worksheets to help you double your CPD credits from the day, and tools to brief your practice on your learning.

*Guidelines* Briefings in cardiology will cover:

NICE cardiology guidelines on:

- \* chest pain/discomfort of recent onset  
*Significant new guidelines just published*
- \* lipid modification
- \* chronic heart failure
- \* atrial fibrillation

Maximising your cardiology QOF points
