### Becoming a Healthy NHS Board

**Date:** Tuesday 14<sup>th</sup> September 2010

**Venue:** Cavendish Conference Centre, London

This year the conference will focus on the two broad themes of governance for quality and the delivery of productivity and efficiency through that process. Following the Francis report of the Mid Staffs Inquiry, the event provides NHS Boards with the information they need to review their standards and governance systems. This will enable them to act on their responsibilities around the development of early warning systems and help them to understand the Board's role in shaping a positive organisational culture. The event also provides a chance to learn the lessons from year one of Quality Accounts and Care Quality Commission registration, and an opportunity to examine the currently developing new frameworks around quality governance.
